

.NET Developer - Porto

Techbiosis is a technology consultancy based in London, United Kingdom, with the main development team in Porto, Portugal, and projects spread all over the Europe. Our technical expertise allow us to work in several fields including, but not restrict to, the implementation of Java software systems; the design and implementation of Ominchannel E-Commerce using Oracle Commerce for high profile clients; and the development of systems using Scala related technologies.

We are looking for an extremely capable and ambitious engineer who has a strong background in .NET development

Job Description:

- University degree in Computer Engineering or similar;
- Proven experience in .NET
- Proven experience in PL/SQL
- Experience in EBS (nice to have)
- Experience of accessing relational databases (preferably SQL Server)
- Proficiency in English (spoken and written);
- Availability to travel.

We offer:

- Health insurance
- Possibility of participation in international projects;
- Integration in a young and dynamic company and possibility of career growth;
- Excellent working environment;
- Macbook Pro

Applicants must submit their applications for jobs@techbiosis.com
